

2021 Application for EnergyWise Electric Heat

Service availability monthly charge is \$49.00
General Service energy rate is \$0.131/kWh
Summer (June-August) energy rate is \$ 0.146/kWh

This contract must be COMPLETED IN FULL PRIOR to any heat or subtract meter BEING ENERGIZED. No changes from General Service or Summer electric rates may be made without a completed and accepted agreement by Arrowhead Cooperative.

Member agrees to participate in one or both of the following **Dual Meter** Interruptible Heat Programs:

- **Daily Interruptible Heating:** The Member's electric space heating system must be sized appropriately to heat the controlled structure during a control period. Arrowhead Cooperative will control heat daily up to 8 hours.
 - **Peak Shave Water (PSW):** Water heaters must have 50 gallons or more of tank capacity. Arrowhead Cooperative may control up to 12 hours during peak events.
 - **Electric Thermal Storage (ETS) Water:** Water heaters must comply with Arrowhead Cooperative rules (80 gallons minimum). Water heaters are controlled 16 hours every day (charging only 8 hours in a 24 hour period).
- Daily Interruptible Heating - \$0.068/kwh**
- Daily Interruptible Heating and Peak Shave Water (PSW) - \$0.068/kwh**
- Daily Interruptible Heating and Electric Thermal Storage Water Heating (ETS) - \$0.068/kwh**

Automatic back-up heat system: _____

Eligible automatic backup sources: fuel oil or propane fireplace/boiler/furnace, pellet stoves, storage heater, slab heating, or other upon written approval from Arrowhead Cooperative.

Rates subject to change based on latest applicable rate schedule or may be discontinued at any time without notice as approved by the Arrowhead Cooperative board of directors.

Note: The secondary space heating system must be capable of automatically providing your entire structures heating requirements during any control period. Please take caution and care in the sizing of your individual space heating and water heating needs. Please remember that all households have differing space heating and hot water needs, the heating system owner is responsible for properly sizing your space heat and water heating infrastructure.

I, the undersigned Member, hereby certify to Arrowhead Cooperative that the Interruptible heating system(s) installed are sized properly for the entire heating load for the electric service at the following property address:

Service Address: _____

I, the undersigned Member, further agree that if the space or water heating system(s), for the above described property address, do not provide adequate heat energy to completely heat the structure during any portion of the day, that Arrowhead Cooperative shall not be held liable and shall be held harmless for any economic loss, personal injury, or property loss that results. In continuance, I agree that Arrowhead Cooperative is not to be held liable and shall be held harmless for any economic loss, personal injury, or property loss that results due to the unsatisfactory operation, malfunction, or inadequate storage capacity of the member owned space or water heating equipment.

Return completed agreement to Arrowhead Cooperative, attention Member Services.

Minimum program participation of three years required, noncompliance may preclude this service from being available to the member for other EnergyWise heating programs or incentives now or in the future. Member agrees to allow the Cooperative to inspect the installation and operation of the load management device at all reasonable hours.
